Portland, Oregon | (808)-866-4858 | [Reach me via email](#) | [Github](#) | [Linkedin](#) |

Qualification summary

I am a front-end developer with a passion for UX/UI. Dedicated to being a positive force for those I interact with in my professional and personal life. My skill set encompasses full-stack development, however I specialize in Bootstrap, JavaScript, React, EJS, and Node. I implement best practices including unit tests and version control to ensure a smooth development process. Some of my strengths include project management and analytical problem solving skills. Possessing strong communication skills is one of the best talents I bring when working amongst a diverse group. Actively seeking roles that allow me to leverage my fast learning capabilities.

Technical Skills

HTML5 | CSS | JavaScript | JQuery | ReactS | Bootstrap | Git/GitHub | Gulp | Yarn/npm | Redux | Sass/Scss | NodeJS | Express | Figma | Blender | Adobe XD

Experience

Freelance / Web Development

December 2021 - PRESENT

After entering Web development I quickly became enthralled with growing my skill set. Since then I have taken a number of clients with projects varying from site rebuilds to building custom pages from scratch. responsive websites using JavaScript, jQuery, React., Node, and Express, as well as a website using WordPress.

Landscapes Unlimited / Office Manager

September 2018 - April 2019 - Portland, OR

Responsible for all administrative tasks ranging from project management, employee onboarding and payroll to accounts payable.

Dutch Bros / Social Media Marketing

January 2015 - September 2019 - Portland, OR

As manager of the social media and marketing team I was responsible for creating content for a franchise Coffee shop with three different locations. Each location had an onsite social media advisor that was responsible for maintaining daily content and promotions specific to their location. Monthly I would design marketing strategies and promotions that were tailored based on the geographical market and clientele. I provided a detailed schedule of required content to implement created to improve SEO.
